About Medcomp

medcomp® develops, manufactures, markets and supports cutting-edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the vascular access field. Our company’s engineering and applications expertise provides superior products whose progressive designs accommodate advances in medicine and whose quality anticipates the requirements of our professional clients and the patients they serve. Currently one of the world’s largest manufacturers of dialysis and centrally terminating venous catheters, Medcomp is, and always has been, on the cutting edge of new vascular access device technologies.

Message to the Customers

In everything we do, from research and development to manufacturing, packaging, delivery and support, our first consideration is the patient. It is vitally important to us that, regardless of age, socio-economic status or type of healthcare treatment required, that every patient receives the best that Medcomp can provide. We dedicate ourselves to supplying the highest quality, innovation and customer service with every device we sell.

Our History

Medcomp was founded in 1978 to manufacture and market vascular access catheters for acute hemodialysis. At that time catheter designs were simple, consisting of a single lumen catheter for single-needle dialysis or double lumen catheters for continuous-flow dialysis. As the need for new products grew with the advent of increasingly complex procedures, Medcomp emerged as a premier developer of innovative devices using our in-house staff of engineers working in conjunction with some of the preeminent physicians in the field of nephrology and vascular access.

Building on our pioneering Tesio®, Split Cath® and Duo-Flow® products, Medcomp continues to dominate the market in both new and proven dialysis, interventional and accessory devices. Today our contributions to the medical devices field total more than 75 product lines and thousands of distinct products, most notably and recently including a CT Injectable Midline, the Celerity™ Tip Location System and the Dignity™ ports.

In order to better support our professional clients, we began a successful transition in 2006 from a distributor-based sales system to a dedicated sales force populated by highly skilled, clinically trained sales professionals. Medcomp is and will continue to be a stable, financially sound, privately held company wholly dedicated to the satisfaction of patients, its customers and its employees at every level.

Development & Production

Medcomp’s reputation and growth can be attributed to our diversely disciplined group of engineers specializing in biomedical and mechanical engineering, collaboration with esteemed professionals, and readiness to listen to suggestions and comments from members of the medical community. By continually improving on existing technology, Medcomp is able to provide a catheter to suit every medical requirement while also considering the patient’s comfort. Patients, physicians and nurses can rely on a Medcomp device to do its job and help make any treatment a more successful one.

All Medcomp products are developed in accordance with all FDA Quality Systems Regulations, European Medical Device Directives (CE), Japanese GMPI and numerous other international regulations and standards to ensure safety and performance. Medcomp is ISO 13485:2003 certified by DEKRA Certification B.V., maintains certification to Annex II as defined in Medical Device Directive 93/42 EEC, and is certified by DNV, Det Norske Veritas, Norway. We are audited regularly.

## ORDERING INFO & POLICIES

P: 215-256-4201  •  F: 215-256-1787  •  medcompnet.com
**PEDIATRIC DIGNITy®**

**SPLIT CATH®**

### Catheter Material
- Polyurethane

### Port Material
- Plastic

### Catheter Size
- 5F

### Configurations
- Attachable, Pre-Attached
- Attachable
- Pre-Attached

### Injection Rate
- 5cc/sec @ 325psi

### Reduced Width and Smaller Profile
- Smallest port for minimal port pocket and smaller incision size.

### Chest or Arm Placement
- Provides alternative options for patients.

### Patient-Centric Design
- Smooth contours and a tapered tail help minimize incision size while improving aesthetics and patient comfort.

### Set Contains:
- (1) Port
- (1) Catheter
- (2) Catheter Locks
- (1) Scalpel
- (1) Introducer Needle
- (1) Intro Pick
- (1) Marked Guidewire
- (1) 10cc Syringe
- (1) 3cc Syringe
- (1) Valved Peelable Introducer
- (1) Tunneler
- (2) 22ga Huber Needles
  - (1) straight, (1) right angle
- (1) Blunt Tip Needle
- (1) Patient Information Pack
- (1) Patient Chart Sticker

### Micro Kit Contains:
- (1) 5F Coaxial Micro-Stick®
- (1) Guidewire with Radiopaque Tip
- (1) 21ga Introducer Needle with Echogenic Tip

  - (1) Catheter w/ Stylet
  - (1) Introducer Needle
  - (1) Guidewire
  - (2) Dilators
  - (1) Scalpel
  - (1) Tunneler
  - (1) Valved Peelable Introducer
  - (1) Adhesive Wound Dressing
  - (2) Injection Caps
  - (1) Patient I.D. Card
**Indicated for Pediatric Use**  
Designed specifically to provide adequate treatment for your smallest patients.

**Taperless Lumen (TLS) Design**  
Reduces the incidence of vessel occlusion in smaller vasculature.

**Easy Grip Luers**  
Crack resistant luers combine comfort and strength.

---

### CATHETER ONLY CONTAINS:

- (1) Vascu-PICC® TLS w/ Stylet
- (1) Patient Information Booklet
- (1|2) Needle Free Valve(s)
- (1) Patient Chart Sticker
- (1) Catheter Securement Device

### BASIC SET WITH OTN CONTAINS:

- (1) Vascu-PICC® TLS w/ Stylet
- (1) Peelable Sheath Introducer
- (1) Latex Free Tourniquet
- (1) 24” Tape Measure
- (10) 2” x 2” Gauze
- (1) Catheter Securement Device
- (1) 10cc Syringe

### PROCEDURE TRAY CONTAINS:

- (3) Pre-Filled Saline Syringes
- (1) #11 Safety Scalpel
- (1) Scissors
- (2) Chlorhexidine
- (1) Surgical Tape
- (1) 25” x 14” Absorbent Towel
- (1) Steri-Strips
- (1) 36” x 36” CSR Wrap
- (1) Adhesive Wound Dressing
- (1) Needle Stick Pad
- (1) Scc Lidocaine
- (1) Filter Straw
- (1) Lidocaine/Saline Stickers
- (3) Surgical Gloves
- (1) Saline Wipes
- (2) 24” Tape Measures
- (2) Face Masks
- (1) 36” x 24” Drape
- (1) Scc Disposable Luer Lock Syringe
- (1) Hypodermic Safety Needle
- (1) 24” x 24” CSR Wrap
- (8) 2” x 2” Gauze
- (1) Bouffant Cap
- (10) 4” x 4” Gauze
- (1) XL Gown
- (1) 40” x 70” Drape (MR17019000)
- (1) Plastic Forceps (MR17019000)
- (1) 37” x 24” Fenestrated Drape (MR17019000)
- (1) Metal Forceps (MR17019001)
- (1) 19” x 12” Fenestrated Drape (MR17019001)

---

**Double “D” Internal Lumen Design**

- **15.5F Lumen**: Enables high flow rates.
- **90º Degree Arterial Tip**: Reduces risk of arterial insufficiency and enables full heparin lock.
- **Tapered, Fast Track Stylet**: Provides a less traumatic and faster insertion.

---

**Polyurethane Step Tip 15.5F Antegrade Straight, Pre-Curved**

- **Material**: Polyurethane
- **Tip Design**: Step Tip
- **French Size**: 15.5F
- **Configuration**: Straight, Pre-Curved
- **Insertion Type**: Antegrade

---

**Long Term**

medcompnet.com
**Hemo-flow®**

*Angled Arterial Tip*
Eases insertion and reduces vessel trauma.

*Straight and Pre-Curved Configurations*
Designed to accommodate patient needs and comfort.

**US and Foreign Patents Pending.**

**Tapered Tip**

Reduces vessel trauma and provides an easier insertion.

**Coaxial Internal Lumen Design**

Round venous lumen provides greater hemodynamic capabilities.

**Raulerson IJ**

Reduces infection and improves patient comfort during treatment.
**Short Term**

**Polyurethane**

- **Material**
- **Tapered Tip**
- **7F, 9F, 11.5F**
- **Straight, Pre-Curved**
- **French Sizes**

**Configurations**

**Catheter Only Contains:**
- (1) Catheter
- (2) Injection Caps
- (1) Dilator
- (1) Patient I.D. Card

**Basic Set Contains:**

---

**Soft Polyurethane**

- Increases patient comfort.

**360° Arterial Ports**

- Help eliminate vessel occlusion and arterial insufficiency.

**Tapered Tip**

- Reduces vessel trauma and provides an easier insertion.

90° ARTERIAL LUMEN
Improves the ability to hold a full heparin lock, maintaining catheter patency.

15.5F LUMEN
Large lumen size enables greater flow rates for improved dialysis adequacy.

**CATHETER ONLY**
- MC013541 15.5F X 15CM T-3 CT, STRAIGHT EXTENSION 10/BOX

**TRIPLE LUMEN DESIGN**

- **11.5F Lumen**
  - Small lumen design.

- **Triple Lumen**
  - Provides reliable access for not only dialysis but also infusion and withdrawal needs.

- **Tapered Tip**
  - Reduces vessel trauma and provides an easier insertion.

**Material**

- Polyurethane

**Tip Design**

- Tapered Tip

**French Size**

- 11.5F

**Configurations**

- Straight, Pre-Curved
**FEMORAL**

**SHORT TERM**

**CATHETER ONLY**
- MCF64 7F x 13.5CM FEMORAL CATHETER, STRAIGHT 10/BOX
- MCF55 8.5F x 14CM FEMORAL CATHETER, STRAIGHT 10/BOX
- MCF10 8.5F x 25CM FEMORAL CATHETER, STRAIGHT 10/BOX
- MCF6 8.5F x 15CM FEMORAL CATHETER, STRAIGHT WITH “Y” HUB 10/BOX

**BASIC SET**
- MCFK64 7F x 13.5CM FEMORAL CATHETER, STRAIGHT 10/BOX
- MCFK100 8.5F x 25CM FEMORAL CATHETER, STRAIGHT 10/BOX
- MCFK60 8.5F x 15CM FEMORAL CATHETER, STRAIGHT WITH “Y” HUB 10/BOX

**CATHETER ONLY CONTAINS:**
- (1) Catheter
- (1-2) Injection Cap(s)

**BASIC SET CONTAINS:**
- (1) Catheter
- (1-2) Injection Cap(s)
- (1) Introducer Needle
- (1) Guidewire

**MULTIPLE CONFIGURATIONS**
Available in double or single lumen designs.

**RIGID MATERIAL**
Ideal for femoral punctures.

**SUBCLAVIAN**

**CATHETER ONLY**
- MCY306PS 8F x 15CM SUBCLAVIAN CATHETER, WITH REMOVABLE “Y” HUB 10/BOX
- MCY308PS 8F x 20CM SUBCLAVIAN CATHETER, WITH REMOVABLE “Y” HUB 10/BOX

**CATHETER ONLY CONTAINS:**
- (1) Catheter w/ Stylet
- (1) Removable “Y” Adapter
- (1) Injection Cap
- (1) Patient I.D. Card

**REMOVABLE “Y” ADAPTER**
Also includes pre-loaded stylet.

**ROTATING SUTURE WING**
Provides secure external anchoring.

**FLEXI-SMOOTH MATERIAL**
Softens in-situ, conforming to vessel anatomy.
SHORT TERM

C.A.V.H.

LOCKING DILATOR
Assures stability of catheter during insertion.

MULTIPLE CONFIGURATIONS
Available in two lengths and French sizes.

ZERO-CLEARANCE
SHEATH/DILATOR TRANSITION
Facilities a less traumatic insertion.

PERITONEAL CATHETERS

V-Series
I-Series
X-Series
COILED TIP
Provides a gentler, less traumatic, showering effect of dialysate on the peritoneum and prevents catheter migration.

DOUBLE CUFF
Ensures optimal outcomes by allowing one cuff to be placed in the rectus muscle and the other in the subcutaneous tissue.

PREFORMED BEND
The lateral or downward direction minimizes the risk of exit-site infection.

---

**Coiled Tip**

Provides a gentler, less traumatic, showering effect of dialysate on the peritoneum and prevents catheter migration.

**Single or Double Cuff**

Ensures device securement, additional protection from bacterial contamination and prevents leaks.

**One-Piece Female Luer Adapter**

Makes connections simple and manageable.
**Catheter Only**

- (1) Catheter
- (1) Titanium Barbed Connector
- (1) Female Luer
- (1) Clamp
- (1) Injection Cap

**Basic Set**

- (1) Catheter
- (1) Titanium Barbed Connector
- (1) Female Luer
- (1) Clamp
- (1) Injection Cap
- (1) Introducer Needle
- (1) Guidewire
- (1) Scalpel
- (1) Peelable Sheath Introducer
- (1) Tunneling Rod
- (1) 10cc Syringe
- (6) 4" x 4" Gauze
- (1) Injection Cap

---

**Materials**

- Silicone

**French Size**

- 15F

---

**Coiled Tip**

Provides a gentler, less traumatic, showering effect of dialysate on the peritoneum and prevents catheter migration.

**Large Side Holes**

Increase flow and reduce incidence of omental occlusion.

**Titanium Barbed Connector**

Securely joins the two catheter end segments for upper abdominal or Presternal placement.
Dignity® CT
Dignity® Mini
Dignity® Titanium
Pro-Fuse® CT
**DIGNITY® CT**

- **Port Material**: Plastic
- **Configurations**: Low Profile, Mid Sized
- **Catheter Materials**: Polyurethane, Silicone
- **Injection Rating**: 5cc/sec @ 325psi
- **Attachable Configurations**: Attachable, Pre-Attached
- **French Sizes**: 5F, 6.6F, 8F, 9.6F

**Contrivance Locking Mechanism**
Universal locking collar.

**Patient-Centric Design**
Smooth contours and a tapered tail help minimize incision size while improving aesthetics and patient comfort.

**Concave Sides**
Allow for controlled, accurate port assembly and placement.

**Set Contains:**
1. Port
2. Catheter
3. Catheter Locks
4. Scalpel
5. Introducer Needle
6. Vein Pick
7. Marked Guidewire
8. 10cc Syringe
9. Valved Peelable Introducer
10. Tunneler
11. 22ga Huber Needles
12. Blunt Tip Needle
13. Patient Information Package
14. Patient Chart Sticker

**Micro Kit Contains:**
1. 5F Coaxial Micro-Stick
2. Guidewire with Radiopaque Tip
3. 21ga Introducer Needle with Echogenic Tip

---

MR Conditional – 3 Tesla (artifacts may present imaging problems if MRI area of interest is on or near area where device is located)
**TITANIUM BODY**
Durable titanium material provides a more robust port.

**CONCAVE SIDES**
Allow for controlled, accurate port assembly and placement.

**PATIENT-CENTRIC DESIGN**
Smooth contours and a tapered tail help minimize incision size while improving aesthetics and patient comfort.

**Port Material**
Titanium

**Catheter Materials**
Polyurethane, Silicone

**Port Configurations**
Attachable, Pre-Attached

**French Sizes**
5F, 6.6F, 8F, 9.6F

**Injection Rating**
5cc/sec @ 325psi

**MR Conditional – 3 Tesla**
(artifacts may present imaging problems if MRI area of interest is on or near area where device is located)

---

MRD respirator: 3 Tesla (artifacts may present imaging problems if MRI area of interest is on or near area where device is located)
**PORTS**

**PrO-fUSe® Ct**

**SET CONTAINS:**

1. Port
2. Catheter
3. Catheter Locks
4. Scalpel
5. Introducer Needle
6. Vein Pick
7. Marked Guidewire
8. 10cc Syringe
9. Tunneler
10. 22ga Huber Needle (1 Straight, 1 Right Angle)
11. Blunt Tip Needle
12. Patient Information Pack
13. Patient Chart Sticker

**Port Material**
- Plastic

**Injection Rating**
- 5cc/sec @ 325psi

**Catheter Materials**
- Silicone, Polyurethane

**French Sizes**
- 5F, 6.6F, 8F, 9.6F

**Configurations**
- Standard, Low-Profile

**Injection Ports**

**CONTRIVANCE LOCKING MECHANISM**
Universal locking collar.

**ROAD, FLAT BASE**
Increases the port’s stability and dramatically reduces the potential for flipping.

**PRo-fuSe loW PRoFile**

**RAISED RIM**
Provides a clear tactile response during palpation to assist in septum location for infusion therapy.

**OPEN SUTURE HOLES**

**SILICONE FILLED SUTURE HOLES**

**MICRO KIT CONTAINS:**

1. 5F Coaxial Micro-Stick®
2. 21ga Introducer Needle with Echogenic Tip
3. Radiopaque Tip

**Silicone Catheters**

**MR Conditional – 3 Tesla (artifacts may present imaging problems if MRI area of interest is on or near area where device is located)**
PERIPHERALLY INSERTED CENTRAL CATHETERS

- Pro-PICC®
- Vascu-PICC®
- Vascu-PICC® TL
- Vascu-PICC® TLS
- Valved Pro-PICC®
- Valved Vascu-PICC®
3F Reduced Taper
Combines the smallest proximal diameter and shortest taper length without compromising power injection rates.

Easy Grip Luers
Crack resistant luers combine comfort and strength.

Power Injectable
Capable of CT injections up to 5cc/sec at 300 psi for diagnostic imaging.*

*Except 3F Pro-PICC.

**Flushable Stylet Set Contains:**
(1) Contents same as Basic Set
**Reverse Taper Lumen Design**
Reduces post insertion bleeding and provides improved catheter strength against catheter kinking.

**Easy-to-Read Depth Marks**
Easily and accurately trim to the desired length.

**Easy Grip Luers**
Crack resistant luers combine comfort and strength.

TAPERLESS LUMEN DESIGN
Reduces the incidence of vessel occlusion in smaller vasculature.

EASY-TO-READ DEPTH MARKS
Easily and accurately trim to the desired length.

EASY GRIP LUERS
Crack resistant luers combine comfort and strength.
VASCU-PICCs® TLS

Single, Double
20cm, 50cm Lengths
1.9F, 2.6F French Sizes

PICCs

**Indicated for Pediatric Use**
Designed specifically to provide adequate treatment for your smallest patients.

**Taperless Lumen Design**
Reduces the incidence of vessel occlusion in smaller vasculature.

**Easy Grip Luers**
Crack resistant luers combine comfort and strength.

**Catheter Only**
- MR1701100 1.9F X 50CM VASCU-PICC® TLS, SINGLE LUMEN 10/BOX
- MR17012600 2.6F X 50CM VASCU-PICC® TLS, DOUBLE LUMEN 10/BOX

**Basic Set With OtN**
- MR17011121 1.9F X 20CM VASCU-PICC® TLS, SINGLE LUMEN 5/BOX
- MR17011101 1.9F X 50CM VASCU-PICC® TLS, SINGLE LUMEN 5/BOX
- MR17012621 2.6F X 20CM VASCU-PICC® TLS, DOUBLE LUMEN 5/BOX
- MR17012601 2.6F X 50CM VASCU-PICC® TLS, DOUBLE LUMEN 5/BOX

**Procedure Tray**
- MR17019000 PICC PROCEDURE TRAY 3/BOX
- MR17019001 PEDIATRIC PICC PROCEDURE TRAY 3/BOX

**Catheter Only Contains:**
1. Vascul-PICC® TLS w/ Preloaded Stylet
2. Patient Information Booklet
3. (1-2) Needle Free Valve(s)
4. Patient Chart Sticker
5. Catheter Securement Device

**Basic Set Contains:**
1. Vascul-PICC® TLS w/ Preloaded Stylet
2. Peelable Sheath Introducer
3. Latex Free Tourniquet
4. 24” Tape Measure
5. 2” x 2” Gauze
6. Patient Chart Sticker
7. (1-2) Needle Free Valve(s)

**Procedure Tray Contains:**
1. Pre-Filled Saline Syringes
2. Safety Scalpel
3. Scissors
4. Chlorhexidine
5. Surgical Tape
6. 25” x 14” Absorbant Towel
7. Steri-Strips
8. 36” x 36” CSR Wrap
9. Adhesive Wound Dressing
10. Needle Stick Pad
11. 5cc Lidocaine
12. Filter Straw
13. 36” x 36” Absorbant Towel
14. Saline Wipes
15. 2” x 2” Gauze
16. 24” Tape Measures
17. Surgical Gloves
18. Hypodermic Safety Needle
19. 5cc Disposable Luer Lock Syringe
20. 19” x 24” Fenestrated Drape
21. 37” x 24” Fenestrated Drape
22. XL Gown
23. 18” x 12” Fenestrated Drape

35. 4" x 4" Gauze
36. 2" x 2" Gauze
37. Steristrips
38. Catheter Securement Device
39. Patient Information Pack
**CUFF PLACEMENT AT 2CM OR 5CM**

2cm placement leaves less catheter exposed when using a smaller tunnel track.

**CLEARLY LABELED**

ID rings and Extension clearly indicate size and power injection capability.

---

**KDOQI RECOMMENDED**

Preserves peripheral veins in patients who need dialysis or may need dialysis in the future.

---

**KDOQI: Clinical Practice Guidelines**

Patients and healthcare professionals should be educated about the need to preserve veins to avoid loss of potential access sites in the arms and to maximize chances for successful AV fistula placement and maturation.

Vascular Access Update

**III. NKF-K/DOQI CLINICAL PRACTICE GUIDELINES FOR VASCULAR ACCESS: UPDATE 2000**

**Guideline 7: Preservation of Veins for AV Access**

A. Arm veins suitable for placement of vascular access should be preserved, regardless of arm dominance. Arm veins, particularly the cephalic veins of the nondominant arm, should not be used for venipuncture or intravenous catheters.

B. Instruct hospital staff, patients with progressive kidney disease (creatinine >3 mg/dL), and all patients with conditions likely to lead to ESRD to protect the arms from venipuncture and intravenous catheters.

- **Rationale:** Venipuncture complications of veins potentially available for vascular access may render such vein sites unsuitable for construction of a primary AV fistula.

**BASIC SET CONTAINS:**

1. Catheter w/ Clamps
2. Guidewire w/ Advancer
3. Introducer Needle
4. Injection Cap(s)
5. 5cc Syringe
6. Vessel Dilator
7. Movable Wing

**SOFT, FLEXIBLE, RADIOPAQUE TIPS**

Less traumatic to the vessel and allow for fluoroscopic confirmation of catheter placement.

**PRINTED DEPTH MARKINGS**

Assist in accurate central venous placement.

**MULTIPLE CONFIGURATIONS**

Available in a variety of lengths, French sizes, and lumen configurations.

**BASIC SET CONTENTS:**

- (1) Infusion Catheter
- (1) Peelable Introducer
- (1) Tunneler
- (1) Mini Scalpel
- (1) Guidewire
- (1) (2) (3) Injection Cap(s)
- (1) Introducer Needle

**SOFT, SILICONE MATERIAL**

Provides biocompatibility and kink resistance, enhancing long term performance.

**POLYESTER CUFF**

Promotes tissue in-growth, securing the catheter and reducing infection.
**Intuitive Components**
Simple and intuitive design provides a platform that is easy to learn, use and teach.

**Advanced, Yet Easy-to-Use Software**
Achieve consistent and accurate catheter placements.

**Benefits the Procedure**
Reduce time to therapy, catheter malpositions and patient exposure to radiation.

IMPORTANT RISK INFORMATION

CELERITY PICC TIP CONFIRMATION SYSTEM

INTENDED USE: The Celerity System is intended to provide real-time tip location information of a central venous catheter by utilizing ECG to observe P-wave changes as the tip approaches the right atrium of the heart via the superior vena cava.

INDICATIONS FOR USE: The Celerity System is indicated for the positioning of Peripherally Inserted Central Catheters (PICC) in adult patients. It provides real-time catheter tip location information by using the patient’s cardiac electrical activity.

The Celerity System is indicated for use as an alternative method to chest x-ray or fluoroscopy confirmation of PICC tip placement in adult patients.

Note: In general, devices that utilize ECG technique to observe P-wave are limited, but not contraindicated for patients where cardiac rhythms may change presentation of the P-wave; including:

- Atrial fibrillation
- Atrial flutter
- Severe tachycardia
- Pacemaker-driven rhythm
- Chronic obstructive pulmonary disorder (COPD)

Such patients are easily identified prior to PICC insertion. Use of an additional confirmation method is necessary to confirm catheter tip location.

CAUTION: Federal Law (USA) restricts this device to sale by or on the order of a physician.

Manufactured by: AngioDynamics, 14 Plaza Drive, Latham, NY 12110 > tel: 800-772-6446 or 518-798-1215 > fax: 518-798-1360

ACCESORIES

- Micro-Stick®
- Super Sharp Introducer Needles
- Repair Kit
- Sheath Dilators
- Dilators
- Guidewires
- Trocars & Tunnelers
**ACCESSORIES**

**MICRO-STICK®**

**LONGER TIP**
Provides a more gradual dilation of the vessel.

**ZERO-CLEARANCE TRANSITION**
Between sheath and dilator, allowing a smoother insertion into the vessel.

**REGULAR AND STIFF VERSION**
A steel cannula inside our stiff version provides extra rigidity for accessing tough vessels.

All orders should be directed to Medcomp’s Customer service department. Orders should be for full box quantities, accompanied with purchase order number.

Products are shipped via United Parcel Service or Fed Ex and are F.O.B. Origin in the Continental United States. Express service is also available at the expense of the customer. Export shipments are shipped air freight to maintain traceability. Should a customer wish air parcel post shipments, Medcomp® will not assume responsibility for lost shipments. All shipments outside of the Continental United States are F.O.B. Origin.

Terms
All orders will be billed at prevailing prices at the time of shipment. Terms are net 30 days for domestic accounts. Outside the U.S., terms are prepayment by wired funds or letter of credit at sight.

Prices are in U.S. dollars, and are subject to tax, if any. All prices are subject to change without notice.

Return Goods Policy
Return goods must be authorized by Medcomp® prior to return. Medcomp® will accept return of any standard product within 30 days, upon approval, providing it is undamaged and in original sealed package, and returned prepaid. Custom products are nonreturnable.

Warranty
• Medcomp® warrants its products to be free from defects in workmanship and materials for the period up to and including the expiration date.
• Medcomp® shall not be liable for any incidental, special or consequential loss, damage or expense directly or indirectly arising from the use of its products.
• Liability is limited to replacing, at Medcomp’s option, any products which shall under normal use and service appear to the company to have been defective in materials or workmanship.
• Damage to the products through misuse, neglect, or accident voids this warranty.
• No agent, employee or representative of Medcomp® has the authority to bind Medcomp® to any other warranty.
• This warranty is expressly in lieu of any other implied warranties, including any merchantability of fitness and of any other obligation on the part of the seller.
• NOTE: Because of continuing product improvement, prices, specifications, and model availability are subject to change without notice.
• Multi-Cath, Tri-Flow™, Fast Track™, Dignity™ and Pro-Pierce™ are trademarks of Medical Components, Inc.

Patents
