STATLOCK® PICC PLUS
INSTRUCTIONS FOR USE

INTENDED USE:
• A stabilization device for compatible winged catheters.

DESCRIPTION:
• Statlock® stabilization device is a stabilization device for compatible winged catheters.

PRECAUTIONS:
• Do not use Statlock® stabilization device where loss of adherence could occur, such as with confused patient or nonadherent skin.
• Observe universal blood and body fluid precautions and infection control procedures during application and removal of the Statlock® stabilization device.
• Avoid the Statlock® stabilization device contact with alcohol or acetone; both can weaken bonding of components and the Statlock® stabilization device.
• Minimize catheter/tube manipulation during application and removal of the Statlock® stabilization device.
• Always apply adhesive strip to central venous catheters at or near insertion site during dressing change involving the Statlock® stabilization device.
• Remove oil and moisturizer from targeted skin area during preparation for use.

WARNINGS:
• Intended for single use only. Do not re-use. Re-use and/or repackaging may create a risk of patient or user infection, compromise the structural integrity and/or essential material and design characteristics of the device, which may lead to device failure, and or lead to injury, illness or death of the patient.
• Do not resterilize. Resterilization may compromise the structural integrity, essential material and/or design characteristics and may lead to an unpredictable loss of functionality and/or device failure.
• Federal law restricts this device to sale by or on the order of a physician.
• Use aseptic technique for application and removal of Statlock® stabilization device.
• Discard if package is opened or damaged.
• Do not alter Statlock® stabilization device or components.
• Procedure must be performed by trained personnel with knowledge of anatomical landmarks, safe technique, and potential complications.
• Product is sterile in unopened, undamaged package. STERILIZED BY ETHYLENE OXIDE

POTENTIAL COMPLICATIONS:
• Known tape or adhesive allergies
• Skin damage when removing device
• Device dislodgement

INSTRUCTIONS FOR USE:
• Prepare target area with skin prep (may or may not be included).
• Allow to dry completely.
• Place suture holes in catheter wings over the Statlock® stabilization device posts (prior to pad adherence).
• Close lids, peel off paper backing, and place on target skin area.
• To remove, lift plastic lids one side at a time.
• Remove the Statlock® stabilization device anchor pad adhesive with alcohol.
• After use this product may be a potential biohazard. Handle and dispose of in accordance with accepted medical practice and applicable regulations.

Note: Apply adhesive strip to central venous catheter for added security during dressing changes involving the Statlock® stabilization device.

Medcomp® does not recommend a particular technique for the use of this device. The physician should evaluate their appropriateness according to individual patient conditions and his or her medical training and experience.

WARRANTY
Medcomp® WARRANTS THAT THIS PRODUCT WAS MANUFACTURED ACCORDING TO APPLICABLE STANDARDS AND SPECIFICATIONS. PATIENT CONDITION, CLINICAL TREATMENT, AND PRODUCT MAINTENANCE MAY AFFECT THE PERFORMANCE OF THIS PRODUCT. USE OF THIS PRODUCT SHOULD BE IN ACCORDANCE WITH THE INSTRUCTIONS PROVIDED AND AS DIRECTED BY THE PRESCRIBING PHYSICIAN.

Because of continuing product improvement, prices, specifications, and model availability are subject to change without notice. Medcomp® reserves the right to modify its products or contents without notice.
