Remote Bluetooth® Pairing

1. Press and hold all four arrow buttons for about 5 seconds. This will remove all pairing information from the remote.

2. On the new iPad® go to settings & support and press the "Pair" icon under Remote Serial #

3. On the remote press any button and the blue remote LEDs will begin to flash slowly.

4. On the iPad® press the area marked "Remote". This will pair the remote with the iPad®.

5. You can verify that the remote has paired correctly by checking that the serial numbers match.
