Innovative Designs Advancing Care Improving Lives

DUO-SPLIT[®]

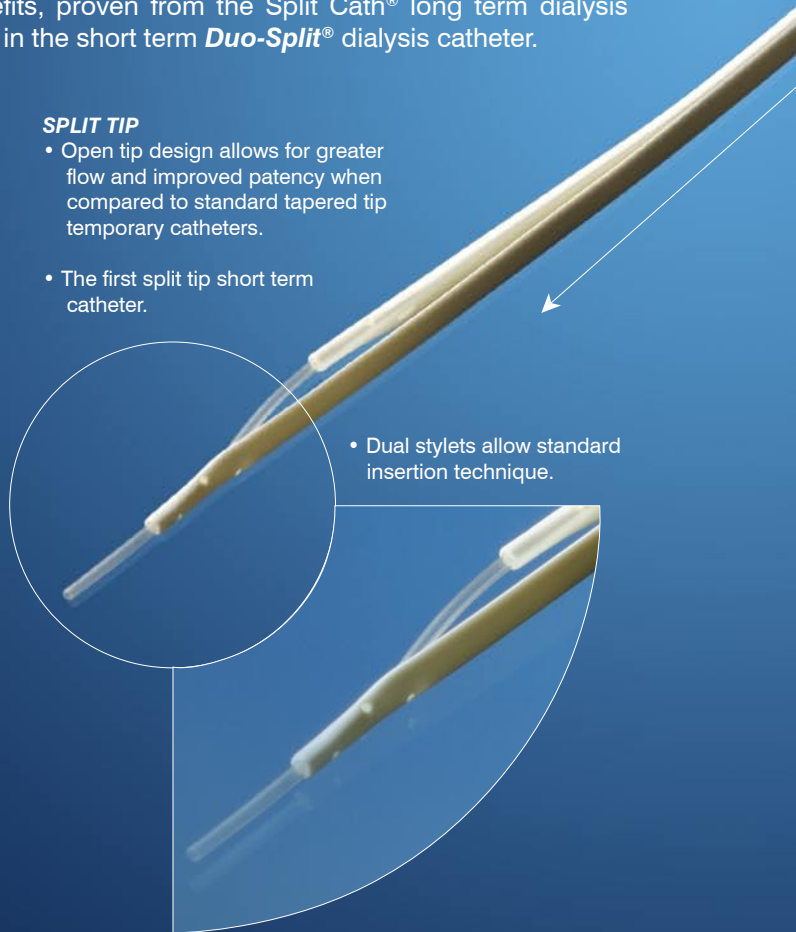

Short Term Split Tip Dialysis Catheter

Medcomp[®] has once again advanced catheter technology by introducing the **Duo-Split[®]** Short Term Dialysis Catheter. The unique Split Tip technology with open distal tip design provides increased flow and patency rates. By incorporating a dual “Fast Track Stylet” system, healthcare professionals can follow standard insertion techniques for a fast and less invasive insertion. Finally, clinicians and patients can receive the benefits, proven from the Split Cath[®] long term dialysis catheter, in the short term **Duo-Split[®]** dialysis catheter.

SPLIT TIP

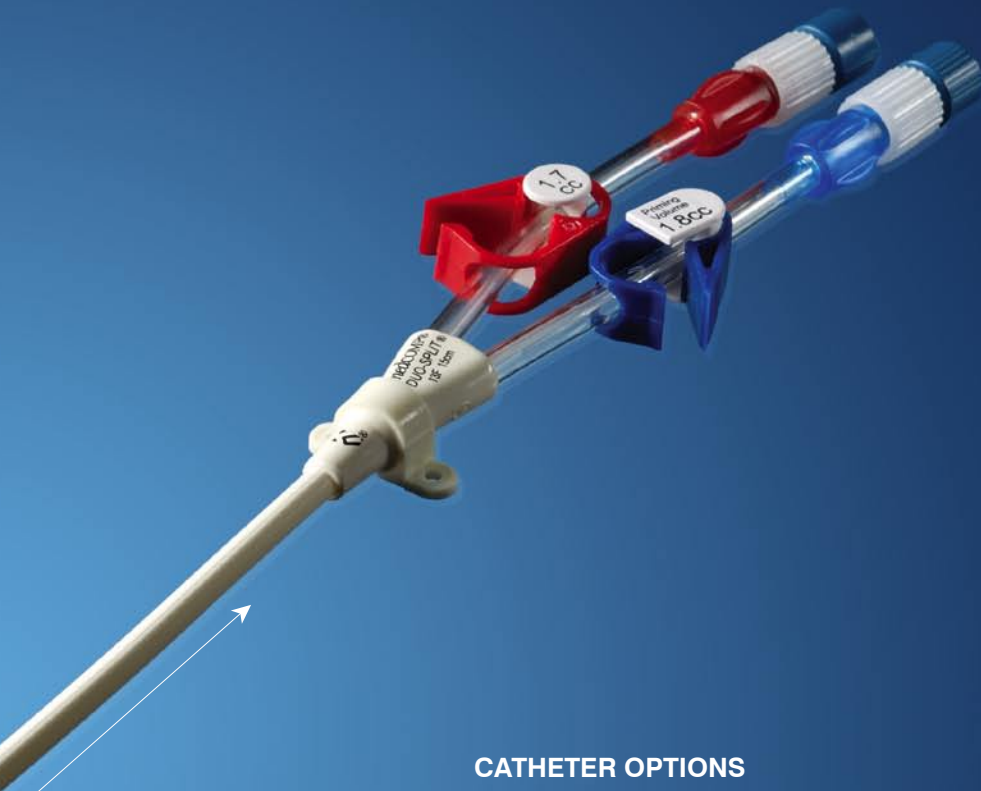

- Open tip design allows for greater flow and improved patency when compared to standard tapered tip temporary catheters.
- The first split tip short term catheter.

- Dual stylets allow standard insertion technique.

DUOSPILL®

CATHETER OPTIONS

Up to 30cm catheter length

- **Lengths**
 - 12cm
 - 15cm
 - 20cm
 - 24cm
 - 30cm
- **Configurations**
 - Straight
 - Pre-Curved
 - Raulerson IJ
- **Kits**
 - Catheter Only
 - Basic Set
 - Full Tray

Catheter Only Components

- (1) Catheter w/Dual Stylets
- (2) Injection Caps
- (1/2) Vessel Dilator(s)

Basic Set Components

- (1) Catheter w/Dual Stylets
- (2) Injection Caps
- (1) Introducer Needle
- (1) Guidewire
- (2) Vessel Dilators
- (1) Adhesive Dressing

Full Tray Components

- (1) Catheter w/Dual Stylets
- (2) Injection Caps
- (1) Safety Introducer Needle
- (3) Safety Hypodermic Needles
- (1) Guidewire
- (2) Vessel Dilators
- (1) Adhesive Dressing
- (1) Safety Scalpel
- (1) Fenestrated Drape
- (1) Hemostat
- (2) CSR Wraps
- (4) 4" x 4" Gauze Pads
- (1) Chloraprep
- (1) 5cc Syringe
- (1) 10cc Syringe
- (1) 5cc Ample Lidocaine
- (1) Set, Surgical Gloves
- (1) 2-0 Silk Sutures
